PROFESSIONAL SUMMARY

Motivated B.Tech IT student with hands-on experience in full-stack web application development, eager to contribute as a Software Developer Intern. Proficient in JavaScript, Python, Java, React.js, and Node.js, with experience building and deploying web applications and consuming REST APIs. Demonstrated ability in problem-solving, teamwork, and developing clean, maintainable code, with an interest in AI/Machine Learning.

PROFESSIONAL EXPERIENCE

Data Science & Analytics Intern

Future Interns | Jun 2025 – Jul 2025

- Developed interactive dashboards using Power BI and Looker Studio to visualize ad campaign performance and identify customer trends.
- Performed data analysis on customer feedback using Python to extract actionable insights for strategic marketing decisions.

PROJECTS

NutriScan – AI-Based Nutrition Scanner App

- Engineered a Flutter mobile application incorporating barcode scanning and ingredient photo analysis to deliver health ratings for over 100 food products.
- Implemented a self-learning database feature enabling instant barcode lookup after the initial ingredient scan, enhancing user experience.

Real-Time Attention Monitoring System for Classroom

- Developed a real-time classroom monitoring system utilizing YOLOv8 and DeepSORT to accurately track student presence and attention direction.
- Designed a live dashboard and generated automated attention reports, demonstrating scalability for 30+ students with appropriate hardware.

Online Examination & Coaching Platform

- Deployed a robust timed MCQ platform with auto-submit functionality, built with JavaScript and integrated REST APIs, successfully used in college exams.
- Built a comprehensive admin dashboard to manage exam scheduling, generate results, and streamline question management efficiently.

EDUCATION

B.Tech in Information Technology

2022 – 2026

LBS College of Engineering, APJ Abdul Kalam Technological University (KTU)

CGPA: 7.42

SKILLS

Programming Languages: C, Java, Python, JavaScript, HTML, CSS

Frameworks & Libraries: Node.js, React.js, Flutter, REST APIs

Databases: MySQL, MongoDB, SQL

AI/ML & CV: YOLOv8, DeepSORT, OpenCV

Tools: Git, GitHub, Postman, Visual Studio Code

Professional Skills: Communication, Problem-Solving, Team Collaboration, Adaptability, Analytical Skills, Software Development Life Cycle (SDLC)

CERTIFICATIONS

Published Research Paper – Real-Time Student Engagement Assessment Framework (ICSTS 2025)
YIP District Level Selection – NutriScan AI Nutrition Scanner App

Dec 2025
July 2025
