PROFESSIONAL SUMMARY

Driven B.Tech IT student with expertise in full-stack web development, skilled in JavaScript, Python, Java, React.js, and Node.js. Experienced in building and deploying web applications, consuming REST APIs, and working with databases. Eager to contribute to software engineering teams developing impactful products.

PROFESSIONAL EXPERIENCE

Data Science & Analytics Intern

Future Interns | Jun 2025 – Jul 2025

- Built Power BI and Looker Studio dashboards to visualize ad campaign performance and identify customer trends and behavioral patterns.
 - Analyzed customer feedback data using Python to extract actionable insights supporting marketing decisions.
-

PROJECTS

NutriScan – AI-Based Nutrition Scanner App

- Developed a Flutter mobile application featuring barcode scanning and ingredient photo analysis to provide health ratings for over 100 food products.
- Implemented a self-learning database, leveraging SQL concepts, for efficient barcode lookup and instant nutritional data retrieval.

Real-Time Attention Monitoring System for Classroom

- Engineered a real-time classroom monitoring system utilizing YOLOv8 and DeepSORT for accurate student presence and attention tracking.
- Created an automated reporting system and live dashboard to visualize attention metrics, demonstrating scalability for up to 30+ students.

Online Examination & Coaching Platform

- Designed and deployed a timed MCQ examination platform using JavaScript and REST APIs, utilized for actual college exams with auto-submit functionality.
 - Developed a comprehensive admin dashboard for streamlined exam scheduling, result generation, and efficient question management.
-

EDUCATION

B.Tech in Information Technology

2022 – 2026

LBS College of Engineering, APJ Abdul Kalam Technological University (KTU), Kasaragod, Kerala

CGPA: 7.42

SKILLS

Programming Languages: C, Java, Python, JavaScript, HTML, CSS

Frameworks & Libraries: Node.js, React.js, Flutter

Databases: MySQL, MongoDB

AI/ML & CV: YOLOv8, DeepSORT, OpenCV

Tools: Git, GitHub, Postman, Visual Studio Code

Professional Skills: Communication, Problem-Solving, Team Collaboration, Adaptability

CERTIFICATIONS & ACHIEVEMENTS

Published Research Paper – ICSTS 2025

Dec 2025

Real-Time Student Engagement Assessment Framework

YIP District Level Selection – NutriScan AI Nutrition Scanner App

July 2025
