SUMMARY

Graduated B.Tech IT student specializing in full-stack development with hands-on experience in AI and computer vision. Experienced in building and deploying real-world applications combining web development with machine learning. Eager to contribute to software engineering teams building impactful products.

PROFESSIONAL EXPERIENCE

Data Science & Analytics Intern

Future Interns | Jun 2025 – Jul 2025

- Built Power BI and Looker Studio dashboards to visualize ad campaign performance and identify customer trends and behavioral patterns.
- Analyzed customer feedback data using Python to extract actionable insights supporting marketing decisions.

PROJECTS

NutriScan – AI-Based Nutrition Scanner App

LBS College of Engineering

- Built a Flutter app with barcode scanning and ingredient photo analysis delivering health ratings for 100+ food products.
- Implemented a self-learning database enabling instant barcode lookup after first-time ingredient scan.

Real-Time Attention Monitoring System for Classroom

LBS College of Engineering

- Developed a real-time classroom monitoring system using YOLOv8 and DeepSORT to track student presence and attention direction.
- Generated automated attention reports and live dashboard, scalable to 30+ students with better camera hardware.

Online Examination & Coaching Platform

Independent Project

- Deployed a timed MCQ platform with auto-submit used in actual college exams, built with JavaScript and REST APIs.
- Built an admin dashboard for exam scheduling, result generation and question management.

EDUCATION

B.Tech in Information Technology

2022 – 2026

LBS College of Engineering, APJ Abdul Kalam Technological University (KTU), Kasaragod, Kerala

CGPA: 7.42

SKILLS

Programming Languages: C, Java, Python, JavaScript, HTML, CSS

Frameworks & Libraries: Node.js, React.js, Flutter

Databases: MySQL, MongoDB

AI/ML & CV: YOLOv8, DeepSORT, OpenCV

Tools: Git, GitHub, Postman, Visual Studio Code

Professional Skills: Communication, Problem-Solving, Team Collaboration, Adaptability

CERTIFICATIONS & ACHIEVEMENTS

Published Research Paper – ICSTS 2025

Dec 2025

Real-Time Student Engagement Assessment Framework

YIP District Level Selection – NutriScan AI Nutrition Scanner App

July 2025
