PROFESSIONAL SUMMARY

Highly motivated B.Tech IT student specializing in full-stack development with hands-on experience in building and deploying web applications. Proficient in React.js, Node.js, and REST APIs, with a strong foundation in Python and Java. Eager to contribute to software engineering teams, leveraging problem-solving and teamwork skills to develop, test, and maintain scalable web applications.

PROFESSIONAL EXPERIENCE

Data Science & Analytics Intern

Future Interns | Jun 2025 – Jul 2025

- Developed Power BI and Looker Studio dashboards to visualize ad campaign performance, identifying customer trends and behavioral patterns.
- Analyzed customer feedback data using Python to extract actionable insights, directly supporting marketing decision-making.

PROJECTS

NutriScan – AI-Based Nutrition Scanner App

- Built a Flutter application integrating barcode scanning and ingredient photo analysis to provide health ratings for over 100 food products.
- Implemented a self-learning database feature, enabling instant barcode lookup after the initial ingredient scan for enhanced user experience.

Real-Time Attention Monitoring System for Classroom

- Developed a real-time classroom monitoring system utilizing YOLOv8 and DeepSORT for accurate tracking of student presence and attention direction.
- Generated automated attention reports and a live dashboard, demonstrating scalability for 30+ students with appropriate camera hardware.

Online Examination & Coaching Platform

- Deployed a timed MCQ platform with auto-submit functionality, built using JavaScript and REST APIs, which was successfully used in college exams.
- Engineered an administrative dashboard for efficient exam scheduling, result generation, and comprehensive question management.

EDUCATION

B.Tech in Information Technology

2022 – 2026

LBS College of Engineering, APJ Abdul Kalam Technological University (KTU), Kasaragod, Kerala

CGPA: 7.42

SKILLS

Programming Languages: C, Java, Python, JavaScript

Web Technologies: HTML, CSS

Frameworks & Libraries: Node.js, React.js, Express.js, Flutter

Databases: MySQL, MongoDB, SQL, PostgreSQL

AI/ML & CV: YOLOv8, DeepSORT, OpenCV

Tools & Platforms: Git, GitHub, Postman, Visual Studio Code, Docker, AWS

Core Concepts: REST APIs, SDLC, Agile Methodologies
Professional Skills: Communication, Problem-Solving, Team Collaboration, Adaptability

CERTIFICATIONS

Published Research Paper – Real-Time Student Engagement Assessment Framework (ICSTS 2025)	Dec 2025
YIP District Level Selection – NutriScan AI Nutrition Scanner App	July 2025
